Children's Entertainment

For childrens parties, I offer two types of entertainment....

The Complete Party

This is, by far, the most popular type of children's entertainment that I do. Probably because I do most of the work so you don't have to!

The actual party lasts for two hours which is the ideal length for all ages. You actually get me for two and a half hours as I try to arrive half an hour early to set up and help you welcome the party goers. This is also a great opportunity for me to establish that special relationship with the host child or children.

Once the guests have arrived we play games and competitions for three quarters of an hour. All the games are non-elimination which means that no child is ever left out. The first one is designed to bring the children together as a group and to break down shyness and the last one is designed to send the children to your meal table in a slow trickle rather than a big, mad rush.

In between, the children win prizes. Amazingly, by the end, they all appear to have won the same number. How is it done, we wonder! These prizes are already in pre-prepared party bags that I supply and are given to the children at the end of the party.

After the games section, the children eat a meal. This is your department and usually lasts up to half an hour including the Birthday Cake Ceremony.

The final part of the party is the Magic Show which is described fully in the next section.

The Magic Only Party

All are welcome to sit and watch James the Magician's special show which always generates fun and laughter within a few seconds of starting. Throughout the show, children are invited up to help with the tricks and at the end, the host child or children usually dress up, use special magic wands to create their own extra presents, receive an exclusive badge and Certificate telling the world that they are now members of the very select James' Magic Club and finally produce my bunny rabbit, Nibbles.

The party ends with another heartfelt rendering of "Happy Birthday" or "Jingle Bells" or whatever is appropriate and everyone who wants to can pet the rabbit.

Older Children

Your older children don't have to be left out as I can entertain them as well as the younger ones. I offer more grown up magic to test their growing incredulity which includes close up magic performed right under their noses. I can also perform a Derren Brown-style Mind Reading Show, which is very popular with the ten year olds and above. Finally, I can offer a Mini Disco for the 'divas' in your family.

Adult Entertainment

Whether you and your friends are 20 or 200, I can give you a great time with hilarious magic and entertainment. For birthdays, cocktail parties, Christmas do's, dinners, anniversaries, wedding receptions, fund raising and promotional events, restaurants and so on. I'm ideal to entertain with close-up magic or my hilarious stand-up cabaret act, where the accent is very much on comedy and audience participation. A combination of silly props and baffling, impossible magic ensure the laughs come thick and fast, guaranteeing that you and your guests are royally entertained. During meals, I move from table to table and at parties or receptions, I mingle informally putting people at ease and breaking down the barriers. The magic is performed before your very eyes!

Corporate Entertainment

For many years, switched-on businesses have realised the effectiveness of employing a **FUN** entertainer to smooth the wheels of commerce during exhibitions or product launches. Hospitality functions, trade shows and other corporate and company events, can be enhanced greatly by my entertainment. I can help you promote your business while, at the same time, entertaining your guests in a way they will never forget.

Using magic to sell the message creates a unique and powerful presentation that is sure to add sparkle to your event. Contact me to discuss your own personal needs.
